Multiple Industry Leading Web & Mobile App Assets

Reach the largest number of potential buyers. Contact us today!

There are many reasons to choose Franchise Ventures.

Here are a few.

Unsurpassed Traffic & Exposure

Franchise Ventures (FV) portfolio of sites and apps attracts over 500,000 visitors per month. Our sites attract a diverse and engaged group of prospective entrepreneurs. Advertising on FV allows you to cast the widest net possible!

Control Your Budget

You choose how many leads you'd like per month to stay within your allotted budget. This may be adjusted up or down at any time.

Custom Filtering

You determine your available states and minimum capital requirements for each lead. These filters may be adjusted at any time.

OneView Dashboard

Every FV Client has their own personal and customized client dashboard where they can view their leads in real time, monitor their lead flow and lead cap progress, and view lead credits.

CRM Connection

We will connect to your CRM and ensure all of your leads flow smoothly into it.

Lead Scrubbing

Every prospect goes through a proprietary "scrubbing" process that is putting forth our best effort to validate phone # and emails. If our system finds no red flags, and the prospect comes from one of your open states and meets or exceeds your cash required filter, then we pass the new lead(s) along to you in real-time.

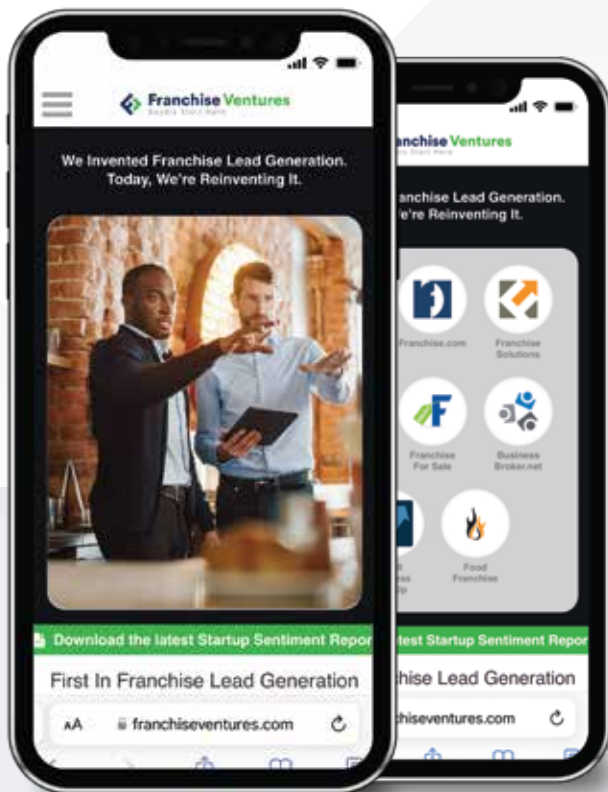

Leads Per Prospect

42% of Franchise Ventures prospects submit to just 1 concept. 59% submit to 1 or 2 concepts. 70% submit to 3 or less brands. This is good news for you as it means you are not competing with tons of other concepts.

Social Media Statistics

Franchise Ventures' digital marketing team works tirelessly across multiple channels to maintain high visibility for your brand everywhere your next franchisees may be.
